

Please Check Battery Polarity  
バッテリーの向きに注意してください

LED legs have polarity, with the longer leg being the anode (A) or (+)  
and the shorter leg being the cathode (K) or (-).  
LEDの足には極性があり、長い方をアノード (A) か (+)、  
短い方をカソード (K) か (-)

\*Note  
Resistor and Ceramic Capacitor doesn't have polarity  
抵抗とセラミックコンデンサーは極性がない
